

Free poker money

Starting out with a free poker money deal is the best way to test a poker room. This means that you get real money from the poker sites and you don't have to deposit anything. These are also called no deposit bonuses or free poker bankrolls. A few bonuses required some kind of identity verification or you may need to pass a poker quiz.

This way you don't risk anything and you can make a deposit if you like the poker room. Poker site
